Unlock Potential and Inspire Youth to Lead Change

Partner with

voices by UWP from Up with People
Our Focus is on Youth & their Voices:

A January 2023 Survey by a leading American University states “more than three in four youth say they believe they can get involved and improve things in their communities”. We believe Youth are the World’s best solution to lead and drive significant change. They carry no pre-set ideologies. They are fearless with their opinions, and see no barriers and everything is “right now” for them.

We created VOICES, to provide a platform and a set of tools for global youth to express themselves and initiate positive change. Participating youth build unique insights into the challenges that various communities are experiencing - public health, economic & social justice, education, environmental and more. They get the opportunity to take on responsibility to address global challenges.

We empower youth to create change, now.

If enough Voices are heard, everyone listens.

The VOICES Program:

Youth participating in VOICES experience a global citizenship curriculum, travel & cultural immersion, a creative journey of designing a festival & performing a show, and a capstone project for sustainable impact in their communities. They also educate and mobilize their peers and urge school, community, state and national decision-makers to take action. We connect empowered youth to 180,000+ Changemakers around the globe, to drive Peace, Dignity and Equality for all.
Music allows for unrestricted expression of beliefs & ideas.

The Arts have been a powerful medium to communicate change, bring attention to relevant issues and highlight solutions.

Art is a language that needs no translation and transcends barriers.

Support us and amplify youth Voices globally.

We have a rich legacy and strong global experience that spans 55+ years. Invest with us to harness the power of youth to transform the World.
Let Youth know you care!
